

DRUG OVERDOSE PREVENTION PROGRAM

Technical Assistance, Education, Training, & Material Development

Partner on community-based education opportunities, drug-take back events, and social media messaging, including special opportunities for law enforcement, first responders, and crisis systems.

Overdose Prevention & Response Training

Learn about overdose prevention strategies, including overdose risk factors, alternative pain management, safe prescription storage and disposal. Learn how to recognize and respond to an overdose, including the administration of two forms of naloxone.

Certificates of Attendance

Receive credit for personal, professional and organizational skill development at Overdose Prevention and Response Trainings.

Overdose Response Supplies

Free overdose rescue kits for organizations, potential overdose bystanders, and individuals in need. Kits include CPR mask, gloves, alcohol wipes, and resource cards. By request, intramuscular naloxone hard cases and pulse oximeters.

Safe Sharps Disposal

Distribute free sharps disposal containers (individual, quart and five-gallon sizes) while providing education on safe at-home disposal to reduce accidental injury.

Community Asset Map

Free, interactive online regional resource map to support access to substance use prevention, treatment, and recovery support services, harm reduction resources, and other community relief (social determinants of health) services.

Community Impact

- Provided technical assistance, education, training & material development to **19 organizations**
- Facilitated **28 trainings**, reaching a total of **475 participants**
- Awarded **119 certificates** of attendance
- Coordinated naloxone distribution to **21 organizations**

September 2020 - August 2021
